

## The Fed Increases Interest Rates

If you haven't refinanced your mortgage recently, your interest rate might be too high. The Fed just increased rates again, and it was no joke. The time for getting a better mortgage may be slipping away. A Pyramid FCU Fastrack Mortgage can lower your rate and be worth thousands in interest. With a shorter term you could have your home paid off before you retire or the college tuition bills start stacking up.

## Celebrate Earth Day, Go Paperless!

Reduce. Reuse. Recycle. Going Paperless not only helps reduce YOUR carbon footprint, but it can save you money! It costs the Credit Union approximately \$3 in materials and labor to produce a paper statement. Across all members, that's a whopping \$30,000 a month! So how is it saving you money? You're an owner in the Credit Union, this costs you in higher operational costs and higher interest rates on loans. Go Green! Go Paperless! Save Money!

## 2018 PyramidFCU Annual Meeting
