The Fed Increases Interest Rates

If you haven't refinanced your mortgage recently, your interest rate might be too high. The Fed increased interest rates in December and most think they will keep increasing rates (at least 3 more times in 2017). The time for getting a better mortgage may be slipping away! A Pyramid FCU Fastrack mortgage can lower your rate and be worth thousands in interest. And with a shorter term you could have your home paid off before you retire or the college tuition bills start stacking up.

January YMCA News

We are delighted to partner with the YMCA of Southern Arizona by [sponsoring the Northwest YMCA](#). In January the YMCA is welcoming new members by waiving the join fee. Also, they offer financial assistance. So don't let financial limitations keep you away from the YMCA!

How can I start saving for retirement when I don't have much money?

It's true that **most** Individual Retirement Accounts have significant minimum investments. But at Pyramid FCU our minimum is \$5. Isn't it time to get started saving for retirement? You don't have to start with a lot. Consistently add to your IRA as you earn and you can set yourself up well in the long run. Come see us at a branch to open your IRA.

Convenience for Members

You can do a lot with just a call. Pyramid FCU members can apply for most loans by calling our contact center at 795-7950.

*Ask your Member Service Representative for details. Some restrictions may apply.
