## The Fed Increases Interest Rates (again)

If you haven't refinanced your home recently, your interest rate might be too high. The Fed increased interest rates in December and again in March and most think they will keep increasing rates (at least 2 more times in 2017).

The time for getting a better deal may be slipping away! A Pyramid FCU FastrackMortgage can lower your rate and be worth thousands in interest. And with a shorter term you could have your home paid off before you retire or the college tuition bills start stacking up.

## Convenience for Members

Touch authentication is available for our mobile app with either iOS and Android.
