Visa Debit/signature (off-line).....	\$100.00 per day

TRUTH - IN - SAVINGS DISCLOSURES

Except as noted, the following disclosures apply to all Pyramid share accounts.

Info on Rates: The Annual Percentage Yield (APY) is a percentage rate which reflects the amount of dividends to be paid on an account for an annual period and is based on the dividend rate and compounding basis. These rates, which may change monthly, are set by the Board of Directors and represent the proposed rates and yields the Credit Union expects to pay at the end of each dividend period. Money Market accounts are tiered accounts, which are listed on the Rate Schedule side of this disclosure. Once a minimum tier balance requirement is met, the dividend rate and APY for that tier will apply to the full balance of the account.

Dividends: Dividends are paid from income and available earnings after required reserve payments are made at the end of a dividend period.

Compounding and crediting of dividends: The compounding and crediting of dividends for each account type are set forth in the Rate Schedule. With the exception of share certificates, dividends are paid monthly at the end of each calendar month on all share accounts. If account minimums are met, dividends accrue from the business day a deposit is made into the account. Accounts closed prior to the last business day of the month will not be paid accrued dividends.

Account Balance Information: A deposit of the minimum par share value stated in the fee schedule must be made to open a Pyramid account. The opening, minimum balance requirements and balances required to earn dividends are set forth in the Rate Schedule side of this disclosure. Pyramid calculates dividends based on the Average Daily Balance in the account for the dividend period by applying a periodic rate to the Average Daily Balance in the account for that period.

The Average Daily Balance represents the full amount of the principal in the account for each day of the period, divided by the number of days in the period.

Account Limitations: For Regular Shares and Money Market accounts, withdrawals are limited to six (6) preauthorized, automatic or phone transfers per month; no more than six of these can be made by check or debit to a third party. If you exceed these limitations the excessive withdrawal fee may apply or your account could be subject to closure. For Share Draft/Checking accounts, no limitations apply. IRA contributions and withdrawals are subject to IRS rules and tax laws.

We report information about your account to the credit bureau. Late payments, missed payments or defaults on your account may be reflected in your credit report.
